

PURPLE SPECTACLE EYECARE PLAN

Spreading the cost of a Comprehensive Eyecare package - for people who value their eyesight.

THE PROBLEM

The cost of providing an eye examination is underfunded by the NHS.

The NHS does not fund investment in advanced instrumentation such as digital retinal and anterior eye cameras, corneal topographers and optic nerve scanners that we use in our eye examinations. These are things that help us take better care of your eyes!

A large part of the cost of providing our eye examination and the advanced instrumentation we use has to be subsidised by the sale of spectacles.

If everyone has an eye exam with us and purchases spectacles elsewhere, we will not survive to provide that service in years to come.

THE SOLUTION

You can help us to address these shortfalls, to secure the further development of your unique practice and save you money too!

By paying the true cost of an eye examination, you would benefit in return from huge savings on your spectacles.

AS A MEMBER OF OUR EXCLUSIVE PURPLE SPECTACLE EYECARE PLAN, YOU PAY JUST £8.00 PER MONTH AND RECEIVE:

Unlimited eyecare appointments with access to all additional tests and instrumentation at no extra charge (value £80)

25% off ALL spectacle frames

25% off ALL spectacle lenses when glazed into a new frame

25% off ALL prescription sunglasses

20% off ALL non-prescription sunglasses

AND...if you are entitled to a free NHS sight test, then we will further reduce the cost of your spectacles by the value of the NHS sight test fee!

AND you can even use an NHS voucher towards the cost of your spectacles, if you are entitled to one.

EXAMPLE OF SPECTACLE SAVINGS

Cost saving of an average pair of branded spectacles frames (sold at £120) = £30.00

Cost of saving of an average pair of Essilor branded varifocal spectacles (sold at £320) = £80.00

Total Saving = £110.00

And don't forget you do not need to pay for an eye examination up front, and we can also use ALL NHS contributions towards your glasses too.
